DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-4, 6 and 8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Tanaka et al. (Japanese patent 04129570 A).

As to claims 1-4, 6 and 8-10, Tanaka (Figs. 1-4; abstract) discloses a balloon catheter comprising bag-like element having inside film 7a, outside film 8, additional film 7c and behaving in the manner as recited by the claims.

Claims 5, 7 and 11 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Tanaka et al. (Japanese patent 04129570 A).

2. As to claims 5, 7 and 11, Tanaka (Figs. 1-4; abstract) discloses a balloon catheter comprising bag-like element. The bag-like element must inherently be shrunk to wrap around catheter 1 for easy navigation in a blood vessel. Alternatively, it would have been obvious to one of ordinary skill in the art to provide a spring means to bias the bag-like element to be wrapped around catheter 1 during deployment for easy navigation in a blood vessel.
